

CLINICS OFFER FLU SHOT APPOINTMENTS

The best way to protect yourself and your family against the flu is to get vaccinated.

The federal Centers for Disease Control and Prevention recommend a flu vaccine for anyone who is 6 months old or older. Some children younger than age 9 need two doses to be protected, so ask your doctor.

The cost of a flu vaccine is covered by Medicare Part B, Medicaid and most private insurance companies.

Our clinics offer 10-minute appointments for flu shots or nasal flu mist at these times and dates.

Call the clinic nearest you to schedule an appointment.
